

Tiny Computers

A museum of tiny computers.

23 October 2026, with iPhone Duo

apps.apple.com/app/id6816896250

Fold your iPhone Duo into tabletop mode and it becomes a miniature computer from decades past, with the screen above and a working keyboard below. Ten machines, all included.

ABOUT

Made for iPhone Duo, it turns the phone into miniature machines inspired by decades of computing. Fold your Duo into tabletop mode and the screen sits above a working keyboard. Spend a little time with an old favourite, or discover the computer your parents grew up with.

Ten computers are ready to play with, inspired by the Macintosh, Commodore 64, IBM PC, Amiga 500, Windows 95, ThinkPad, iMac G3, iBook G3, PowerBook G4 and Windows XP.

FEATURES

- Ten miniature computers spanning the 1980s to the 2000s, all included
- Clicking keyboards, working command lines, paint programs and floppy disks
- Familiar desktop games, with a medal to win on every computer
- Hidden files and secret commands to find; occasionally, even Windows crashes
- Designed around iPhone Duo's two displays and tabletop mode
- Browse the collection on the outer screen when the phone is closed

About Fountain Interactive. Fountain Interactive is an independent interactive studio in London, founded by Dan Fountain. Dan has spent more than ten years making tactile, playful software. He was the game designer and technical artist behind the fluid ink in State of Play's INKS., winner of a 2016 Apple Design Award, and has worked on the Apple Design Award-winning Blackbox for AVP and the BAFTA-winning Lumino City. Fountain Interactive's first two apps, Fold & Squish and Tiny Computers, launched alongside iPhone Duo in October 2026. Press kit: <https://fountaininteractive.com/TinyComputers/press/>
